Boracay Overview

Red Coconut Beach Resort

Red Coconut Beach Resort is owned and managed by Interisland Resort & Services, Inc., a French-Filipino management. Red Coconut is strategically located at the main beach and most popular place in the island-the White Beach. Right at the center of the world famous stretch where most of the island's sports facilities, restaurant, bars, discos, and boutiques are found-where the action is! Guests could conveniently enjoy a

walk to the island's many other attractions. Friendly and welltrained staff will make you feel at home and assist you with any fun activity that catches you fancy. The Coconut, which comes in different shades of green, yellow, and gold, is the product of a tropical palm tree, the COCONUT palm, a large hard-shelled edible nut, having a hollow center with milky fluid. There are many fascinating tales about the coconut. It has inspired festivals in some parts of the country side The Pahiyas sa Lucban, Mayohan sa Tayabas, and Agawan Festival in Sariaya. It has become a subject of a kumintang song, an in 1911, and a pop song, The Coconut Nut by internationally known group Smokey Mountain. It was also discovered to be an almost magical cure for kidney disease. The coconut has become so versatile, you will find everything about it useful, from the crown to its roots.

Cebu is also known as "Queen of the South"

Cebu is the traveler's fantasy of a tropical island come true - balmy weather, pristine beaches, crystalline waters, and luxurious resorts with all the frills of modern living. The island-province of Cebu was where the Portuguese navigator Ferdinand Magellan planted the Cross of Christianity in the name of Spain in 1521. But even before Cebu became the Occidental gateway to the Orient, it was already a popular entry point among Asian merchants. Cebu has since blossomed into a choice tourist destination, with many leisure establishments taking full advantage of its sea-valley-and-mountain location.
